Token Management & Intelligence

The Art and Science of Protecting Your Token's Value

STRATEGIC CRYPTO TREASURY AND LIQUIDITY MANAGEMENT

WHAT WE SOLVE

Your token is the market's proxy for your project's success. Sentinel makes—and keeps—your token stronger with first-principles tokenomics, disciplined supply introduction, deeper liquidity, and low-impact funding.

OUTCOMES

A STRONGER TOKEN

Bespoke, value-accruing tokenomics, greater market convexity, lower costs for institutional demand.

A MORE RESILIENT PROJECT

Token monetization strategies that extend your runway while minimizing market impact.

REDUCED REGULATORY RISK

Operating from a proven regulatory playbook, used by a top-10 project under strict scrutiny.

SERVICES

TOKENOMICS

First-principles utility, incentives, sinks, and emissions designed for real (price-agnostic) demand.

LIQUIDITY GROWTH

Deep liquidity to reduce costs to access to your token via accountable, KPI-driven market-making.

TREASURY MANAGEMENT

Disciplined token supply introduction, low-impact monetization, and yield on stablecoin balances.

MARKET ANALYTICS

Near real-time liquidity, price, and other markets data, including market maker KPI adherence.

WHY SENTINEL

UNMATCHED EXPERIENCE:

Experience across a top-10 token ecosystem and top-tier market-makers.

ALIGNMENT WITH YOUR PROJECT:

We embed with your team, make decisions together, and take ownership of markets functions—so you keep strategic control while we carry the operational load.

FOCUS ON LONG-TERM SUCCESS:

Emissions and funding plans are built to extend runway, control negative convexity, and hold up under stress.

FREE UP YOUR CORE TEAM:

We handle tokenomics, liquidity, and treasury execution—freeing product, BD, and engineering to focus on your core product, shipping, and growth.
